Mrs. Sally Monigle called the meeting to order at 4:43 p.m.

Mr. Heckrotte made a motion to approve the application that is being presented this evening. With the proviso that we will see the shop drawing or a mock-up of the windows that are being made; and with the proviso that the Delaware Street elevation of the Robinson House will look as it does now, with the windows being two over two. Inherent in this approval is the library's request for out opening casement windows on the Robinson House, also with the proviso that the Commission would like to see more detail of the entablature of the doors facing the parking lot. More detail on the bay window on the back of the new addition, we would also like to see better renderings for color, specifically the gray tinted glass and reflectivity of it, giving a better sense of what it means to have standard glass and caulk lines.

Mr. Bird Seconded the motion with the proviso that the information can be provided on an interim basis, not having to wait until the next meeting.

The motion was approved vote (3-2).
