IMPORTANT NOTICE

2013 BUSINESS LICENSE APPLICANTS -

The City of New Castle has adopted an ordinance (copied on the following page) requiring compliance bonds as a condition of licensing for certain business occupations located or performed in the City.

A waiver of the bonding requirement may be granted by the City Building Department Code Official, upon written application, when in the opinion of the Code Official, the nature of the particular business activity itself does not have a reasonable potential for danger to the health and safety of the community, or the value of the particular business activity is so small as to pose an insignificant risk to the health and safety of the community. When a waiver is granted for any construction activity, each subsequent building permit applied for will require approval of an additional written application for a waiver of the bonding requirement, or the submission of an acceptable bond.

The Building Department Code Official policy has been determined that requests for business licenses for construction activities for work valued under \$1,000 during calendar 2013 will generally be exempt from the bonding requirement, but that *each application for a business license will be individually reviewed for potential risks to the health and safety of the community.*

Any form of application for a waiver of the bonding requirement will be considered, but signing and returning a copy of this notice will be sufficient to allow consideration for a waiver.

If you have any questions, including a list of surety companies authorized to transact business in the State of Delaware, or wish the details of your particular business operations in the City, please feel free to contact the Building Department at (302) 322-9813, or to fax questions to (302) 323-2144. The Building Department anticipates that many businesses will be exempt from this requirement. Thank you for your help.
