Code Enforcement Report: Mosquito Control

The City of New Castle will be cooperating with the State of Delaware Division of Fish & Wildlife to maximize mosquito control in the area in an effort to combat mosquito borne diseases.

The City will aggressively enforce City health codes that require the elimination of standing water, and encourages residents to report problems.

Look for potential areas for mosquito breeding, such as tires, buckets or tubs, boat tarps, clogged rain gutters, tree rot hole or hollow stump, anywhere water can collect and stagnate.

Go to www.newcastlecity.delaware.gov for much more information.
