

New Castle County continues to undergo a property tax reassessment countywide. Residents may have begun to see data collectors making their way through New Castle County to reassess parcels.

New Castle County has engaged Tyler Technologies to conduct the reassessment project. Property owners will be receiving letters requesting information that will assist with reassessment.

Property owners should be on the lookout for data collectors in our community. They will be making their way through the City, visiting every parcel and collecting data. The data collector may also ask the occupants about the property.

Please contact the County assessment office (302-395-5083) with any questions. The most accurate information will ensure the most accurate value for the property.

For more information on this process, please view the [website](#) regarding the reassessment, and continue to check the County [website](#) for updates.
