New Castle-The First Capital of the First State!

The most picturesque and historic waterfront community on the East Coast!

From the Tree Advisory Commission:

Help Keep Our New Trees Watered

Over the last 10 years, over 300 trees have been planted along New Castle City streets. Newly planted trees need at least 20 gallons of water every week from April through November, and they need more if we have a drought or hot weather (*and we already have both!*).

Public Works waters some of our new trees but doesn't have the capacity to water them all. In order to keep our city trees thriving, we rely on property owners to water the rest.

If a street tree in front of your property has a tree bag, please:

- Fill the bag twice a week by inserting a garden hose in the slot at the top. The water will seep out of the bottom of the bag over the next few hours.
- Ask a neighbor to fill your bag if you will be out of town.
- If we get at least one inch of rain you can skip the next watering.

Thank you for keeping our new trees thriving!

LIBRARY ON THE LOOSE

Code Enforcement Corner

Code Enforcement helps to maintain and improve the quality of life of New Castle City residents by administering an unbiased enforcement program to correct violations of City zoning, property maintenance and building codes;

Complaint forms are available on the City Website, www.newcastlecit.delaware.gov or at the City Offices. Complaints are handled on a confidential basis; however, if feedback and/or updates are requested, name, address and phone number need to be provided with the complaint.

Street Trees: A street tree is a tree planted in the sidewalk or a planting strip in the public right-of-way. If you have a street tree in need of attention, please contact the City office at (302) 322-9801, or go on the City website to submit a Tree Work Application. www.newcastlecit.delaware.gov/tree-commission.

The City of New Castle Tree Advisory Commission acts in an advisory capacity for the City of New Castle regarding the maintenance of the street trees and other trees on

City property. There are approximately 1,000 trees that the Commission oversees.

From the Code: § 210-12:

A. No person shall, without a valid tree permit, remove, destroy, break, cut or deface any street tree.

B. No person shall directly or indirectly permit any toxic chemical or any toxic substance to seep or drain or be emptied on or about any street tree.

A tree work permit is required for the planting, removal or pruning of branches of street trees. A resident must obtain a tree permit to ensure that proper care is given to street trees. Street tree work completed without a permit shall be a violation of this chapter subject to fines and enforcement actions under the City Code.
