

Calculate Your Home's Energy Use for a Chance to Win an Energy Efficiency Kit!

This September, use the Electricity Usage Calculator and enter to win one of five energy efficiency kits!

Efficiency Smart's free Electricity Usage Calculator helps you understand how electricity is used in your home and how it impacts your utility bill. Enter some information about your home, appliances, and HVAC systems, and the calculator will do the rest. You'll discover which parts of your home use the most energy, and see how much you can save with efficient equipment or small tweaks to your daily routines.

HOW TO ENTER

- 1 Visit the Electricity Usage Calculator**
at www.efficiencysmart.org/electricity-usage-calculator.
- 2 Use the Calculator**
Enter information about your home to generate your results.
- 3 Enter The Drawing**
Between September 1 and September 30, enter your home's top three energy users from your calculator results in the contest entry form at <https://woobox.com/aecjvp>.
- 4 Earn a Bonus Entry (Optional)**
After you submit your entry, you'll receive a unique referral link. If a friend or neighbor uses your link to enter the contest, you'll earn one additional entry into the prize drawing.

Limit one bonus entry per participant.
